

## ABOUT THE AUTHOR

Dr. William F. Koch received his B.A. in 1909, M.A. in 1910, and Ph.D. in 1916 from the University of Michigan. While at the University of Michigan he did his original research on the function of the parathyroid gland. In 1918 Dr. Koch received his M.D. degree from the Detroit College of Medicine (Wayne State University). From 1910 to 1914 he was Instructor in Histology and Embryology at the University of Michigan. In 1914 he became Professor of Physiology at the Detroit College of Medicine. From 1915 to 1919 he was Pathologist (Active and Honorary) at Women's Hospital in Detroit, Michigan. After leaving the Detroit College of Medicine in 1919, Dr. Koch went into the private practice of medicine. Since 1919 he has continued with his independent research in this country, in Europe and in South America.

Articles and publications writ-
